## OBJECTIVE

---

I am seeking a position that provides me with opportunities to enhance my skills and where I can utilize my skills for the organization..

## SKILLS

---

Programming : Python, C, Data Structures ,AI/ML

Web Technologies : HTML, CSS, Basics of JavaScript

Tools : MS Office, WordPress, Salesforce, Google Colab,

Skills : Leadership, Team Player, Communication, Time Management

## EDUCATION

**Kakinada institute of engineering and technology KORANGI** Diploma in Computer MARKS: 70.5 2020-2024  
Science and engineering

### MPL High School

10th Class

GPA: 9.2

**Kakinada**

2019-2020

## PROJECTS

---

### ECOMMERCE Website :

An ecommerce website is an online platform that enables businesses to sell products or services to customers over the internet, providing a global reach, convenience, and increased sales opportunities through features like product catalogs, shopping carts, and secure payment gateways.

### AI/ML

Developed a machine learning model to predict employee salaries based on various factors such as experience, education, job role, and location.

- Performed data preprocessing, feature engineering, and exploratory data analysis to understand salary trends
- Applied and compared algorithms like Linear Regression, Decision Trees (mention your model) to build predictive models
- Achieved an accuracy of **XX%** (if you know your model score), optimized model performance using cross-validation and hyperparameter tuning
- Visualized insights using Matplotlib/Seaborn to communicate key findings

## CERTIFICATIONS AND INTERNSHIPS

---

**Full stack web developer**

**Krify software company , kakinada**
